A time to make a Stand!

can your family live on

less than \$1800

a year?

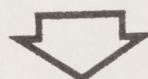

THAT IS WHAT

THIS FARM WORKER'S
FAMILY EARNS THOUGH
EVERY MEMBER OF THE
FAMILY WORKS 10 HOURS
A DAY, 6 DAYS A WEEK

DON'T BUY CALIF. GRAPES

By not buying California table grapes you personally help farm workers get better wages and working conditions. Common conditions on the giant farms include: no toilets in the fields, half-hour lunches and no breaks, 10 hour work days, and earnings of \$1600 to \$1800 a year. While growers earn millions, their workers are forced to the welfare rolls. To help farm workers get off welfare and get a just share of profits, don't buy California grapes. The farm workers are trying to help themselves and they want to work for what they get, but they need your help. Farm workers only want the same things other people take for granted: sanitation facilities, medical and unemployment insurance a minimum wage. Farm workers often choose between poor wages or nothing; and going to work sick or getting fired. Each one of us must pressure the giant growers until they improve conditions by not buying California grapes.
